

Meeting Notes

Date: 11/8/2023

Meeting Title: Expedia Website Development

Creative Director: Zeyuan Zong

Designer/Developer: Claire Li

Overall Feedback: The website is very visually appealing by using complex skills including colorful background and fancy animations. However, the site is more like an official website other than a wiki page. The functionality is good, but more introduction needs to be added. More paragraphs and images about Expedia itself must be added.

Action Items:

Claire will start working on the project and consider the outlined components.

Claire will explore design ideas on the introduction and shrink the portion of functionality.

Research and gather information related to Expedia's history and development.

Next Steps:

Schedule the next meeting to review progress and share design concepts.

Claire can seek guidance or provide updates as needed.

Closing Remarks:

The meeting concluded with a shared understanding of project objectives and an enthusiastic approach to creating the Expedia website.
