Project Title: Expedia

https://en.wikipedia.org/wiki/Expedia_Group

I would like to build a website for Expedia. This multi-page website include the following components:

Introduction: A brief introduction to the company including history and some fun facts.

Air-ticket: Design a friendly UI for users to book air-ticket

Travel: Design a booking website that calls to user's action for users to book a tour

Resorts: Introduction to some most populated resorts including their rankings
